*WFJ Fienup was an avid duck hunter and trapshooter. He developed the Youth Shooting Foundation to share his family's love of shooting sports with following generations. In addition, he purchased the property on which the Missouri Trapshooters Association Home Grounds sits. The family's ongoing generosity allows Missouri youth the ability to engage in this traditional sport by the contribution of practice targets and shells. MTA is honored to be a steward of this legacy. We welcome youth, families and coaches to take advantage of this opportunity. Come shoot with us!*
